Passionated for database

I consider myself as an experienced industrial engineer with a strong passion for programming and software development. Possessing a diverse skill set that includes full-stack development, project management, and excellent communication skills, they are a quick learner and team player who enjoys collaborating with others to deliver innovative solutions that meet and exceed project requirements. With a background in programming languages such as Java, Python, HTML, CSS, and JavaScript, I am really eager to bring my technical and interpersonal skills to an App Developer and Programmer Full Stack role, and make a valuable contribution to the continued success of every future employer.
